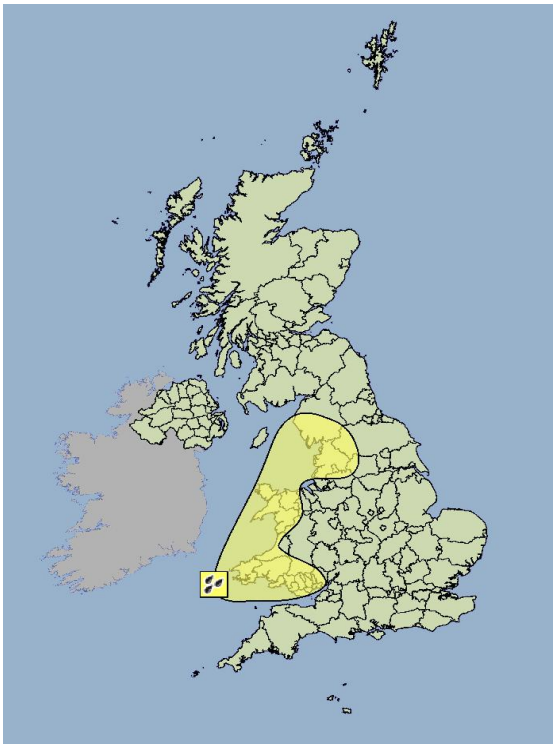
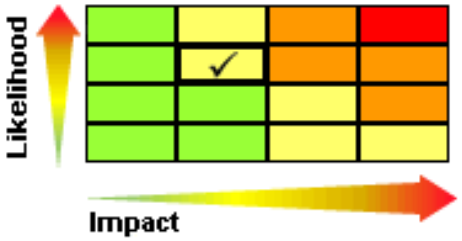
National Severe Weather Warning Service





Chief Forecasters Assessment
A large area of rain is expected to run across the UK through Monday and into Tuesday. This rain is expected to become slow moving and heavy at times over parts of the highlighted area. This has the potential to widely generate 40 to 60 mm of rain and as much as 80 mm over some areas of high ground, most likely in Cumbria and Snowdonia.

Please note this an update to the warning issued on Sunday to remove parts of eastern Wales, the Midlands and southern parts of northwest England from the warning.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **06:00 on Mon, 05th Jun 2017** until **06:00 on Tue, 06th Jun 2017**

Heavy rain is expected across Wales and Northwest England on Monday, lasting into Tuesday morning.

This will be persistent in some places with the potential for localised flooding along with disruption to some transport routes and more difficult driving conditions.
